TLS HOME ELEVATOR SOLUTION

TLS Classic – Our standard package that provides hydraulic durability, superior ride and safety. It comes with a 750lbs capacity and comes standard with a birch wood panel interior ready for finishing by others. The model comes with industry standard stainless steel fixtures (hall calls and buttons and panels) and matching quality stainless steel handrails. Battery lowering is provided along with a white laminate ceiling with 2 down lights standard.

TLS Plus – Our most popular offering and for those that want a cost conscience model without the need to have others finish the interior design. The Andromeda features a hydraulic drive system, superior ride and safety. It comes with the option for a 750 or 950lbs capacity. The standard interior finish is birch wood panels with in factory stain and trim. You can also choose from a choice of 3 premium laminates. The fixtures for this package are a choice of stainless steel, matte black, or brushed commercial bronze. Each selection comes with matching bronze, matte black or stainless handrails. The ceiling is white, black or an elegant mirrored laminate with 4 down lights. The gate is a wood or vinyl laminate accordion for safety. Comes with an autogate operator. Battery lowering is included.

TLS Premium - Our premiere custom option with greatest design flexibility. It includes a hydraulic drive system with superior ride and safety – 950lbs capacity. Options include an interior birch ply finish with oak, mahogany or walnut factory stained and trimmed or a choice of 5 premium laminates. Two-Speed sliding doors sets this model apart. They can either be stainless steel or primed to be paint ready. Fixtures include a choice of stainless steel, matte black, brushed stainless steel, mirror bronze, mirror stainless or brushed commercial bronze. The ceiling finishes include white, black, mirrored laminate or laminate matching the side walls. It comes with 4 surface mount down lights. Comes with automatic gate closing is available. Battery lowering included.

*Each can be upgraded with additional costs.

** All our products come with a 10 year limited warranty - The longest in the industry!
